

WHSC's own First Aid & CPR Training Now **WSIB-approved**

▶ FREE INSTRUCTOR UPGRADE

Workers Health & Safety Centre (WHSC) is an approved provider of First Aid and CPR training. And we are now the first and only of the Ontario's Health and Safety Associations, approved by the WSIB to deliver our own first aid programs.

To help ensure delivery capacity, WHSC is seeking instructors who are already certified by a WSIB-approved first aid training provider to get qualified to deliver our newly approved First Aid and CPR programs. Interested? See below for details. Our upcoming, full-day WHSC First Aid & CPR Instructor Upgrade sessions are free to approved instructors.

REGISTER TODAY to ensure your seat at the session of your choosing. Each session is limited to 12 participants.

Following registration and approval you will receive a confirmation of enrolment email from WHSC.

If a session is not scheduled in your region, or you are unable to attend one of the scheduled dates, please complete the registration form and select "Other". Enter your preferred area, and a Training Services Representative will contact you to discuss available options.

WHSC First Aid & CPR Instructor Upgrade Sessions	
Where	When
Windsor	Monday, Sep. 28, 8:00 am – 4:00 pm
London	Tuesday, Sep. 29, 9:00 am – 5:00 pm
