It's your right!**

## **Let's make work safe. It's your right!**

Employers must provide a safe and healthy workplace. It's the law. Government inspectors must ensure that they do. It's their job. Workers enjoy three basic rights too:

- 1. The right to know about the hazards they face.**
- 2. The right to participate in eliminating hazards.**
- 3. The right to refuse unsafe work.**

The law says no one can discriminate against or discipline you for exercising these rights. And you don't have to do this alone. There is **safety** in numbers.

The Workers Health & Safety Centre can help. We are Ontario's health and safety training centre of choice. In recognition of the challenges immigrant and migrant workers face this message is available on our website in several other languages.
